

List of suppliers' questions and answers for tender No 04/EU/2014/CCTV

No.	Supplier's question	Buyer (DCT's) answer
1.	Is it acceptable to supply cameras with IP=68 instead of required IP=69k ? IP=69k is being used in high pressure cleaning for diary products	We require the cameras to be IP69k as our equipment is cleaned periodically with high pressure water/steam jet.
2.	Is it acceptable to extend the bids submission deadline?	The bids submission deadline is already extended. More information on our website.
3.	<ol style="list-style-type: none"> 1. will DCT Company provide a mobile elevating working platform / man lift or something like this? 2. if yes, will you charge anything for this? how much will this cost? 3. can the installation be effected inside (in a hall) or must this be done outside? 4. will you charge anything for using the hall? 5. could you please email us any photos of RTG cranes? 	<ol style="list-style-type: none"> 1. No, the supplier will be responsible for organizing such equipment. 3. Unfortunately not, the installation will have to take place outside.
4.	Please confirm the number of cameras required on one RTG. Based on experience in BCT and after RTG size analysis we suggest that 6 cameras per crane is enough (4 static on legs+2 rotating cameras surveying RTG working area).	Please provide a bid for the specified number of cameras (3).
