

STANDARD TARIFF

BALTIC HUB CONTAINER TERMINAL

Tariff valid from 1st January 2026

Definitions

- I. Baltic Hub (also referred in this document as "BHCT") – the container terminal of Baltic Hub Container Terminal Sp. z o. o.
- II. Tariff – Baltic Hub Standard Tariff.
- III. In case of inconsistency between Polish and English version of the Tariff, Polish version prevails.
- IV. Public Holidays
 - Christmas: 24 Dec., 25 Dec., 26 Dec.
 - New Year: from 15:00 on 31 Dec., 1 Jan.
 - Easter: from 15:00 on Holy Saturday, Easter Sunday, Easter Monday
 - Others: 6 Jan., Pentecost, Corpus Christi, 1 May, 3 May, 15 Aug., 1 Nov., 11 Nov.
 - Other Public Holidays not mentioned above will be considered as Sundays.
- V. Container sizes as understood by the Tariff
 - a. 20' containers (and shorter) will be settled as 1 TEU;
 - b. Containers longer than 20' (but less than 40') will be settled as 2 TEU;
 - c. 40' containers will be settled as 2 TEU;
 - d. Containers longer than 40' (i.e. 45') will be settled as 3 TEU.
- VI. Out of gauge containers (OOG) - all containers with oversized cargo with access to the upper or lower casting corners:
 - ❖ Where total gross weight of cargo and container tare of up to 37,00 tonnes, the height of cargo cannot exceed 2,10 m (applies to 20') or 2,40 m (applies to 40') over the container's outline (OH), the width cannot exceed 0,80 m per side over the container's outline (OW) or will be charged with a non-ISO surcharge.
 - ❖ Where the total gross weight of the cargo and container tare of up to 40,00 tonnes, without OH, the width cannot exceed 0,80 m per side (OW) or will be charged with a non-ISO surcharge.

All containers with cargo not subject to the standard described in this section will be treated and settled based on separate arrangements with the Customer.
- VII. Settlement of ISO containers with full access to all upper casting corners, without any OH and OW exceedances, depending on the gross weight:
 - ❖ with a gross total weight of up to 40.00 tons – settled as standard
 - ❖ with a gross total weight of 40.00 to 45.00 tons – always loaded with the non-ISO surcharge
 - ❖ with a total gross weight of 45.00 tons or more - settled based on separate arrangements with the Customer
- VIII. BHCT does not handle containers weighing more than 40.00 tons on railway siding.
- IX. Hazardous cargo in containers: IMO cargo in Classes 2-6, 8-9 subject to a surcharge of 100% to rates for loading or discharging of containers and cargo. All containers with IMO cargo in Class 1 subject to a surcharge of 1000% to rates for loading or discharging of containers and cargo and will be treated and settled based on separate arrangements with the Customer.
- X. Change of information (also known as: change of data, COD, COI) – any change of any data regarding the container and cargo ordered by the Customer, including change of information connected with the IMO SOLAS VGM convention after the container gates in.
- XI. Rail Operations Management Fee- fee for activities performed by BHCT employees, collected by BHCT from the Customer or other party arranging railway transport. The fee covers services not

included in Container Handling Charges, point 1. in this Tariff. Rail Operations Management Fee includes but is not limited to:

- a. Rail wagons setup and preparations: comprehensive preparation of rail wagons for loading and unloading operations, including adjustments to container pins, ensuring wagons are cleared for efficient operations (free from physical obstructions),
- b. Load plan compliance check: detailed verification of the load plan as submitted by the customer, ensuring alignment with the actual loading conditions on-site. This includes verifying weight distribution based on wagon types to ensure safe loading and that axle load limits are not exceeded. Necessary checks related to regulatory holds, such as safety inspections, will also be conducted
- c. Operational discrepancy management: identification and communication of discrepancies between the submitted load plan and real-time conditions. This process includes informing the customer of any discrepancies and issues that arise, allowing them to provide accurate data and resolve the problems. BHCT ensures uninterrupted service by reporting discrepancies, but it remains the customer's responsibility to correct the load plan and ensure data accuracy
- d. Rail window management: service focuses on real-time manual planning and management of allocated rail windows to ensure that terminal capacity is optimized and able to accommodate off-schedule trains without disrupting overall operations, monitor train performance and adjust schedules in response to delays, minimizing disruptions and improving service reliability
- e. Coordination of rail traffic between Terminal and external infrastructure: active communication and coordination with external stakeholders, including rail infrastructure managers (local and national), to ensure the efficient flow of train traffic into and out of the terminal, this includes aligning the terminal's operational windows with external infrastructure capacity, managing potential conflicts, and optimizing train movements to avoid delays
- f. Real-time performance management: ongoing tracking and reporting of key performance indicators (KPIs) and overall operational efficiency, this includes proactive management of rail windows, which is crucial for optimizing GPP station, GPA tracks (901/902) and terminal capacity and ensuring smooth coordination with Train Operators. Based on real-time data, together in close collaboration with Train Operators we will make necessary adjustments to schedules and operations, to maintain high levels of efficiency and minimize disruptions

- XII. ETA – Estimated Time of Arrival indicated as day and time.
- XIII. BHCT reserves the right to transport the containers to a convenient place outside the terminal after the 30th day of storage and to charge the customer with all costs related to this. Settlement will be made with the entity that will be assigned in the NAVIS system in the "Agent 1" position.
- XIV. In case of exceptional circumstances not within the control of BHCT, which alter the relative rights and obligations of BHCT and/or the Customer to the detriment of BHCT by excessively increasing the contractual obligations of BHCT (including but not limited to increases of the cost of labour, energy and/or materials) BHCT will adjust the tariff.

General information

- I. Unless otherwise agreed by the Parties in writing, any rights and obligations under the Tariff are regulated by the BHCT Terms of Business and binding BHCT Procedures and Regulations. The said documentation is available at: BalticHub.com
- II. Charges included in the Tariff are valid, unless BHCT and the Customer expressly agreed otherwise in writing.
- III. BHCT renders services based on written or electronic orders, submitted in the format defined by BHCT.
- IV. The Customer is at the same time the payer for the services provided by BHCT, unless otherwise agreed in writing. The payer for the services is an entity whose data is available in the terminal operating system at the time-of-service provision.
- V. All charges detailed in the Tariff are net charges. VAT will be added to all charges in the rate applicable on the invoice date.
- VI. Conversion of the charge into the payment currency (PLN) is done according to the average rate of exchange of the Polish National Bank valid for the day of service completion.
- VII. For services performed on Saturdays, Sundays and Public Holidays a relevant holiday surcharge will be applicable.
- VIII. Services not included in the Tariff will be agreed separately between BHCT and the Customer.

⁹ Container manipulation connected with the move of a container from yard (and back) for stuffing, stripping, etc., single door opening and single seal removal and placing, if necessary.

¹⁰ The rate includes plug in and plug out of reefer containers necessary for inspections, stuffing, stripping, etc.

¹¹ Picking up goods left in CFS warehouse after inspection is included in the rate for presenting general cargo (as in points 1.5.3, 1.5.4).

¹² Cargo weighing less than 1000 kg will be charged as for 1000 kg, the weight of goods exceeding 1000 kg will be rounded up to the nearest whole 100 kg

¹³ Container manipulation connected with the move of a container from yard (and back) for customs examination, scan, inspection, fumigation, cargo turn out of up to 200 kg or one cargo unit like pallet, big bag, packet, roll, cardboard, ball and single door opening and single seal removal and placing, if necessary.

¹⁴ Cargo turn out – inspection of 50% of cargo up to 50% of cargo weight in container will be settled for 50% of total weight of cargo in the container regardless of the weight or quantity of turned out cargo.

¹⁵ Cargo turn out in relation container – warehouse/yard or vice versa and cargo turn out during fumigation. In exceptional cases the rates will be agreed separately based on effective cost of labour and working time of equipment.

¹⁶ Cargo turn out – 100% inspection of cargo will be settled as for 100% of total weight of cargo in the container regardless of the weight or quantity of turned out cargo.

¹⁷ The service includes stripping of the container and the reloading of the goods subject to inspection to another means of transport, e.g. an external vehicle

¹⁸ Regarding partial and 100% inspections ordered and agreed by Customer with Public Authorities, but without performing cargo turn out for reasons dependent on Public Authorities (despite ordered 100% or 50% inspection)

¹⁹ Rate includes move of container from yard (and back) for customs inspection or examination and cargo turn out in relation container – yard and vice versa.

²⁰ At any stage, if inspection is taking more than 24 hours, BHCT reserves the right to load the cargo back into the container and return the container to the yard until the customer is ready to finish the inspection. All rates from paragraph 1.5 are applicable to the loading back of cargo and second and consecutive manipulations and cargo turn outs.

²¹ Rate applicable per full container in case of increased security to second level

²² Rate applicable for full container in case of exceeding second level of security

²³ Rate applicable also in case of resignation from container pick up (before container leaves the terminal), as well as change of container's position on a trailer, including turning of container on a trailer.

²⁴ Rate applicable to weighing or weighing and tare.

²⁵ Applicable for road and rail

²⁶ Rate includes 2 additional container moves necessary to render the service.
